TENTS

Tents can be an extremely important addition to your event. They come in many different styles and sizes. If your event will include a tent it is very wise to have the rental company come for a site visit. They are the professionals and will be able to recommend the correct size to accommodate the number of guests, tables and dance floor. Locates and electrical availability will be discussed as well as sides and lightening. **NEVER LEAVE ORDERING A TENT TO THE LAST MINUTE!**

TIPS AND THINGS TO CONSIDER

Rentals can add up very quickly adding additional costs to your budget. There are a couple of things that can help.

- Use one fork and knife for the dinner service – eliminate the salad fork
- Self-serve coffee stations help reduce the number of spoons, creamers and sugar bowls
- Glassware can be a real culprit. Elegant disposables can be used for pre and post bar service using real glassware for dinner service only
- If you are against using plastic encourage your guests to use one glass. I have been at weddings where the guest is given a glass with their name on it when they arrive and that is their glass for the event
- Always check to see what time the rentals have to be removed from an event. Some venues want them out after the event is over, this will incur additional costs from the rental company to have them picked up on “off hours”
- What gets broken has to be paid for!
